PAN Pesticides Database - Pesticide Products

[JOIN PAN >>](#)[Home](#) > [Pest Control Product Search](#)[Help](#) | [Feedback](#)

Product Name: Lagenidium giganteum mycelium & oospores

Note: See [Working with the Information on this Page](#) section below for important notes about this data.

This database and website are updated and enhanced by [Pesticide Action Network North America](#) (PANNA). The project is made possible by our [Sponsors](#) and by PANNA general funds. We need your support to maintain and improve this system. Please support the database and website — [donate to PANNA](#).

<u>Product ID</u>	Identifying information, including U.S. EPA registration number, product registration status, formulation and warning label, as well as links to sources of product labels and MSDS information.
<u>Toxicity</u>	Summary of the toxicity properties of each active ingredient and the percent of each active ingredient in the product.
<u>Uses</u>	Approved uses for the product by general use type, pest, and crop or location.
<u>Registration</u>	Product registration history, including initial date registered, date cancelled (if applicable), and date registration was transferred (if applicable).
<u>Company</u>	Name, address, and identifying number of the company that registered the product. Name and address of the agent, if applicable.
<u>Distributor Names</u>	Complete list of names under which this product is sold. Often a company will register a single product and then sell the same product under many different brand names. The 'Distributor Name' list is a complete list of these names.

Toxicity for Lagenidium giganteum mycelium & oosporesTop **Summary Toxicity Information for the Active Ingredients in this Product**

For detailed chemical information click on the chemical names below

Active Ingredients Chemical Name	Percent	Carcinogen	Cholinesterase Inhibitor	Developmental or Reproductive Toxin	Endocrine Disruptor
 Lagenidium giganteum, mycelium or oospores	40.0 %		No		

Legend

 Indicates high toxicity in the given toxicological category.

 Indicates no available [weight-of-the-evidence](#) assessment. For additional information on toxicity from scientific journals or registration documents, see the "Additional Resources for Toxicity" section of the chemical detail page for each active ingredient.

Other Ingredients in this Product

By U.S. law, only active ingredients (AIs) are reported. In addition to active ingredients, pesticide products may contain one or more "inert" ingredients. Many "inert" ingredients in current use have known adverse human and environmental effects.
